
I Just Got Wiped Out!

Hi People,

I just like literally lost \$500 in 10 minutes playing blackjack, I'm sure its fixed, the dealer got two blackjacks in a row. Can you believe that.

Anyone got any blackjack tips, cause I think I need some. Something a little more advanced than basic strategy please. B)

My suggestion first in first you are playing online slots and gained the experience \$500 free at Palace of Chance Casino. Start playing your favorite casino games like poker sport books. find your gambling games and win prizes playing free casino games.
