hi everyone,

Its been awhile since i've played this one, I can't even remember how the cards draw off the top of my head but certainly know its a quality game to play. Is there anywhere online where baccarat can be played?? any of you play it anywhere??

thanks alot:)

Hiya

I play baccarat at william hill casino, the softwares good so the game plays fine and I also win frequently!!

There's a rules page if you wish to brush up on the cards

check it out

Hi

All online casinos have baccarat as far as I know, there's a list of casinos below

its a very popular game anyway especially in the far east.

I always bet on the banker because the house has the lowest edge when you do that.

I love that game especially the one that played with a deck of Tarot cards.
