## Anyone using Netteller?

Posted by Bonus Expert - 2009/06/17 23:17

---

Hey

I noticed a lot of casino's give a better bonus if you use netteller, is anyone here using it, is it and easy and good payment processor?

Thanks

Hi

I've not used it myself only just heard about it, will check it out though somethime and let you know how it goes,

thanks

Hi,

This is my first post so bear with me...I have got a netteller account only made 2 deposits to it so far and 1 deposit to lucky ace casino. Swift transaction.

There are some small charges on certain deposit and withdrawal types all explained on their website.

Before my account became active I had to go through an ID process where I had to provide my bank account IBAN number and sort code. Netteller then made a smal deposit into my account within 5 days and then I had to confirm what this amount was. Once confirmed a netteller agent called me to confirm my details.

They do provide a neteller mastercard with your account where you can withdraw cash (£3) fee or use at point of sale with no fee. Pretty good if you want to leave money in your account and not be charged any fees for withdrawal.

hope this helps!

Hey Little Vic

Thanks very much! I think I'll go and open an account now! Most casino's accept Neteller maybe it will help me organise my online casino money so I'll know exactly how much Im up (or down)
