I'm not sure if this will interest any of you people but I'll let you know anyway, just in case..

go casino are running a an amazing 4th of July slots Tournament, buy in is 44c and you could win a share of the massive \$144,444 prize pool. The top prize winner will win \$64,444!

44c for a possibe \$64,444! thats what I call a profit margin

:P

If you dont play I dont mind it just means I have less people to beat in the tourney lol

:P

hi there, I love playing slots, I've been playing at go casino quite often recently, the game play is excellent and they have online support if you require any assistance when withdrawing. I'll definately be entering in this one!

:woohoo:
