## Anyone Tried 6 Crush NL Online?

Hi,

I been reading through this new poker guide and I wonder if anyone else has read it if not it is certainly giving me some new tricks that I was unaware of.

I had previously been playing a very aggressive game and bluffing way too much.

Using this guide I found I was folding almost all the time, but when I did bet I won big. And the odd time I bluffed I got a way with it several times

I think it definately was an eye opener for me, I'm still as bit of a novice, but I am definately improving.

Hi

I've not read this myself, i've seen people talking about it elsewhere, it seems to work for a few people I see. I may have to check it out some time.

Hi Bob,

Yes it is a cool guide. I would certainly give it a look. I had an amazing game of poker yesterday I totally cleared up I was playing to the strategy and with a little luck I managed to triple my starting bank from £30 to £90 in a couple of hours.

£30 an hour is much more than I get in my lousy job, so I'm hoping to become a poker pro :P
