
Jackpot Winner @ Slotland Casino!

Recently, a regular player called SOUTHBELLE at Slotland, hit the jackpot for \$148,000. She hit playing their Lucky Stars slot machine... one of her "luckiest" machines. I'd like to congratulate her.

I have been playing at Slotland for several months and I really enjoy their games. I have won several hundred dollars there, but of course played it back trying to win the jackpot, lol. Seems like their winnings are more consistent than many other online casinos. I have found most of the staff to be very nice and efficient in solving my problems when I have had one. I have tried several casinos, but always end up coming back to Slotland.

Great! BTW, which is your favorite slot from Slotland? Have you tried playing their games on Iphone or ipad? They've got great graphics and sound effects too.
